

Sterling NST Series

Tannin, Hardness, &
Iron Reduction System

- *Cleaner laundry*
- *Clear water*
- *Reduced staining*
- *Sparkling dishes*

NST Series water softeners are designed to remove the tannic acid "ice tea" color from water. Hardness is eliminated and iron is greatly reduced.

- **Regeneration with merely salt.** No costly or dangerous chemical required.
- **Inexpensive.** One unit does the work of three. The softener reduces iron and removes color.
- **Low maintenance.** Occasional salt replenishment is required.

Model Number	Mixed Bed Media Volume	Hardness Capacity (grains)	Type of Regeneration	Service Flow Rate (GPM)	Overall Dimensions h x d x w	Pipe Size
NST45	1.5	24,000	Time Clock	8	64" x 20" x 44"	3/4"
NST60	2.0	30,000		10	60" x 20" x 48"
